PROFILE

Senior Full-Stack Engineer with ~8 years of experience building high-concurrency web platforms, distributed backends, and low-latency real-time systems across fintech and healthcare. Core expertise in Node.js, NestJS, Next.js, PHP, WebSockets, and event-driven architectures. Designs fault-tolerant trading platforms, integrates applied AI and LLM workflows into enterprise software, and optimizes database throughput. Leads technical delivery end to end, from design to high-availability deployment.

EXPERIENCE

Vinove Software and Services

Sep 2025 – Present

Senior Software Developer — Noida, UP

- Architected and delivered backend microservices using Node.js and NestJS for high-availability enterprise web portals.
- Engineered a multi-tenant Hospital Admin Portal with complex Role-Based Access Control (RBAC), managing cross-entity workflows across hospital networks, doctors, and patient referrals.
- Built a high-throughput doctor-patient real-time communication platform using WebSockets, delivering low-latency concurrent messaging across distinct user roles.
- Developed **CareerPilot**, an institutional web portal with a Next.js frontend, Python-integrated backend APIs, and real-time WebSocket messaging.
- Integrated agentic AI workflows and LLM-assisted features into internal product pipelines, automating recurring developer tasks and accelerating prototype cycles.
- Built a browser-based 3D asset management tool with Autodesk Viewer APIs to render and manipulate complex spatial models on the client.
- Designed and deployed REST APIs for CrushGuru, supporting media sharing, user messaging, and real-time video communication.

Finvasia Centre

Feb 2021 – Jul 2025

Software Developer — Mohali, Punjab

- Designed and scaled high-frequency crypto trading portals (Admin, Broker, Client) using React.js, Next.js, and WebSocket connections.
- Architected a low-latency live-streaming pipeline for stock and cryptocurrency market feeds, handling continuous data ingestion with sub-second dashboard updates.
- Built interactive financial dashboards with live order book rendering, portfolio analytics, and high-performance candlestick charts.
- Integrated MetaTrader and ActTrader execution gateways for automated order routing, trade execution, and settlement workflows.
- Reduced page load times and eliminated UI frame drops with Server-Side Rendering (SSR), lazy loading, and memoized Redux Toolkit state.

Leo Software Pvt. Ltd.

Aug 2020 – Dec 2020

Software Developer — Shimla, HP

- Built a **Student College Portal** using HTML for the frontend and PHP for the backend, handling data fetching, record updates, and form submissions.
- Engineered scalable backend workflows and standardized REST APIs for core financial and student management systems.
- Maintained data integrity and enforced transaction safety across relational database schemas.

Abaca Systems

Oct 2017 – Oct 2019

Quality Analyst / ERP Engineer — Mohali, Punjab

- Validated and supported ERP financial modules including general ledgers, cashbooks, and Profit & Loss (P&L) reporting pipelines.
- Ran system testing, business requirement analysis, and enterprise production support to keep financial calculations accurate.

SKILLS

Languages
JavaScript (ES6+), TypeScript, Python, PHP, SQL, HTML5, CSS3

Backend & Architecture
Node.js, NestJS, PHP, REST APIs, GraphQL, Microservices, Event-driven Architecture, WebSockets

Frontend
Next.js, React.js, Vue.js, Nuxt.js, Redux Toolkit, Pinia, SSR, Performance Optimization

Real-time & AI
WebSockets, Pub/Sub, LLM API Integration, Agent Workflows, Prompt-driven Automation

Databases & Tools
PostgreSQL, Redis, Sanity.io, Git, GitHub, Jira, Selenium, Autodesk Viewer APIs

KEY PROJECTS

Real-time crypto trading ecosystem
High-concurrency trading platform integrating MetaTrader/ActTrader execution engines and live WebSocket ticker feeds.

Hospital & telehealth portal
Enterprise healthcare solution with real-time multi-role doctor-patient messaging, referral tracking, and secure RBAC.

Headless publishing architecture
Next.js and Sanity.io CMS platform with real-time previews, instant content updates, and optimized caching.

EDUCATION

MCA, Master of Computer Applications
Chitkara University
2015 – 2017

BCA, Bachelor of Computer Applications
University College of Business Studies, HPU
2012 – 2015
